**Tumble 4 Tots** - a new class centered for our younger dancers. It will include dancing and tumbling skills. At such young ages it is important for our students to learn the movement of the body as well as body control. In our Tumble 4 Tots class, we will work on strengthening the muscles with a fun and age appropriate approach. We will also work on balance, basic tumble skills, and incorporate our creative dance skills to build a strong foundation for our ballerinas.

**Jazz/Tap**- DAG offers Tap and Jazz classes for ages 5 (Kindergarten and up). We find that summer time is great time to introduce Jazz & Tap so that our students can sample or hone in their skills for the school year. Jazz is a great enhancement to ballet that gives more attention to musicality and syncopation.

**Ballet**- is DanceArts core discipline. Classical ballet is based on formalized movements and positions of the arms, feet, and body designed to enable the dancer to move with the greatest possible agility, control, speed, lightness, and grace. Classical-ballet technique is based on the turn-out position of the legs, which increases the range of movement through added mobility in the hip joint and also imparts a more pleasing line to the extended leg.
